22nd September 2025

Dear Sahaj,

At Base Metal Chemicals, we strongly believe that meaningful community growth begins with education. We are therefore delighted to commit INR 1,55,000 (Rupees One Lakh Fifty-Five Thousand only) towards the Science Lab Development Project spearheaded by the Baroda Science Society (BSS).

This initiative aligns perfectly with our CSR vision to promote quality education and empower rural youth with scientific knowledge and practical exposure. We are confident that the BSS Lab will not only enhance learning but also inspire students to explore STEM careers, helping bridge the urban-rural education gap.

We commend your dedication and look forward to witnessing the positive transformation this initiative will bring to local schools and communities.

Sincerely,

Amal Kumar
