

October 28, 2025

Dear Mr. Sahaj Patel,

We, at Technology International, are pleased to express our commitment to support the Baroda Science Society (BSS) in its initiative to promote science education and hands-on learning experiences for students across rural schools in Gujarat.

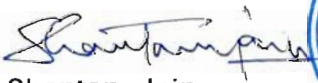

In alignment with our organization's Corporate Social Responsibility (CSR) objectives and the United Nations Sustainable Development Goal 4 (Quality Education), we are proud to contribute a total amount of INR 3,10,000 (Rupees Three Lakh Ten Thousand only) towards the establishment of 2 fully equipped Science Laboratories under the BSS Rural STEM Lab Program.

This contribution will assist in procuring laboratory equipment, setting up physics, chemistry, and biology experiment stations, and ensuring proper infrastructure for safe and effective learning. We believe this initiative will have a long-term impact on building curiosity, confidence, and creativity among students, empowering the next generation of scientists and innovators.

We commend the efforts of the Baroda Science Society in making science accessible and inspiring young minds across Gujarat. We look forward to continued collaboration and to receiving periodic updates on the lab's progress and impact metrics.

Please consider this letter as our formal commitment to the above-mentioned funding, to be processed as per mutually agreed timelines and documentation.

Warm regards,

**Shantanu Jain**

**Director**
